

Report to the Adult Social Care and Health Cabinet Committee

Kent Learning Disability Partnership Board
29th January 2016

What I did

On the 3rd December 2015 I went to the Adult Social Care and Health Cabinet Committee to help present a report.

Who else went

Penny Southern - Director of Disabled Children, Adult Learning Disability and Mental Health

Sue Dunn - Head of Skills and Employability

Graham Gibbens - Cabinet Member for Adult Social Care and Public Health

What is the Adult Social Care and Health Cabinet Committee

The Committee is made up from Kent County Councilors and their role is to:

- Look at KCC services around Adult Social Care and Health
- Make decisions on services provided and money spent on these services.

Why we went

We went because the Board wanted to know what services were available for vulnerable people trying to find work.

The Board also wanted to know what it was like for someone with a learning disability who was trying to find work.

What our report was about

The report was to look at what services are available to help vulnerable adults into employment in Kent

It also looked at how well Kent is doing nationally to do this.

What was said

Members of the public and County Councilors heard:

- About the work I have done with Jobcentres
- Problems I have had in finding employment
- What I would like to see changed in the future

More information

If you would like to see the presentation in full, this can be found on the KCC website.

Once on the website and search for 'Adult Social Care and Health Cabinet Committee':

www.kent.gov.uk

Any questions?

bye
