*"2018 is the year  
I will get a paid job!"*  
-Katie

For the last 15 weeks I've been running a course for a group of amazing job-seekers supporting them on their journeys towards paid employment... and I've been filming them for much of the way. Now the course has finished we're having a celebration film-screening and we'd love you to come!

The film is twenty minutes long and the whole event will last about an hour. Whether you are a friend, a family member, a Pepenbury supporter or a local employer the film will inspire you to believe in the potential of a group of people that are often underestimated or ignored.
