

Update on the Joint Health and Social Care Self-Assessment Framework (SAF)

Kent Learning Disability Partnership
Board - 14th July 2015

What has happened since our last meeting?

As you know the SAF is a tool that we use to check how well we are doing on providing services to people with learning disabilities.

We gave in our report in January 2015 and we have been waiting for the results

What has happened since our last meeting?

Two events were held to look at the finding of the SAF and talk about how the SAF could be improved

Joanne went along to one of these events to find out the latest information

What was said at the SAF event?

If the questions will stay the same?

This was not answered but it was suggested that we know what is in the SAF and carry on with this work

What was said at the SAF event? (continued)

We were told that a lot more figures (especially on the health questions) will be collected nationally next year

What was said at the SAF event? (continued)

It was also suggested that there should be an extra question to find out who is leading in supporting the work around learning disabilities

Commissioning Support Unit

Kent's results

We have very recently been given Kent's results. These were very complicated and we have been working to make these easier to understand.

Kent's results (continued)

We also have some questions to ask as we are not sure that we have been scored correctly on some of the questions.

The results for Staying Healthy

Question	Question Text	Kent Rag Rating	Average Rag Rating
A1	GP registers The Learning Disabilities Quality and Outcomes Framework register in primary care.	Amber	Amber
A2	Long Term Health Conditions Finding and Managing Long Term Health Conditions: obesity, diabetes, cardiovascular disease, epilepsy.	Red	Amber
A3	Annual health checks This RAG question is based on coverage numbers and will be completed by the Learning Disabilities Observatory	Amber	Amber
A4	Health Action Plans Health Action Plans are generated at the time of Annual Health Checks (AHC) in primary care.	Amber	Amber
A5	Cervical cancer screening	No Score	Red
A5	Breast cancer screening	No Score	Red
A5	Bowel cancer screening	No Score	Amber

A8	Reasonable Adjustments in primary care Considering NHS commissioned primary care services - dentistry, optometry, community pharmacy and podiatry.	Amber	Amber
A9	Offender Health and the Criminal Justice System	Amber	Amber

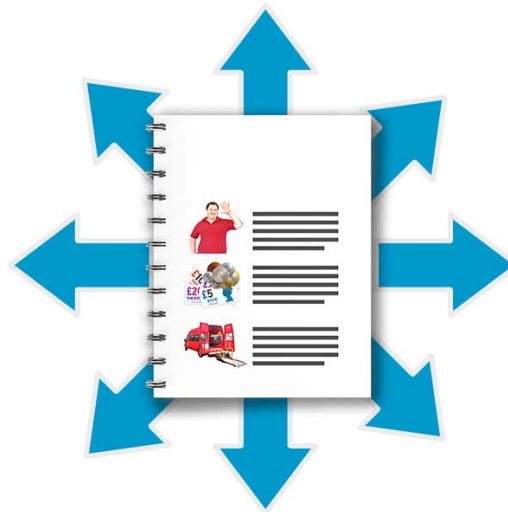

The results for Keeping Safe

This is the area we are have some questions on. We think that we have not been scored correctly on some of the questions and we are waiting for this to be checked.

The results for Keeping Safe (continued)

We will send the Board an update as soon as we hear our correct scores from Public Health England.

The results for Living Well

Question	Question Text	Kent Rag Rating	Average Rag Rating
